

Rising Beyond Borders

Website Specification — Document 02

HOMEPAGE MASTER SPECIFICATION

This document defines the homepage from first principles. The existing homepage is a source of reusable UI and content patterns, not the required final structure.

The homepage should orient visitors, explain the organization, show what it does, establish trust, demonstrate impact, and provide clear ways to participate. Detailed information belongs on deeper pages.

Brand: The supplied guidelines define #10437C, #00ADEF, #5CB85C, #F5F7FA, white and #3A3A3A, with Satoshi as the primary typeface.

Source basis: The annual report describes RBB as a non-profit focused on empowering communities and sustainable solutions, and establishes Education, Health & Wellbeing, Livelihoods and Community Support as program areas.

Content status: Confirmed source facts are distinguished from proposed copy and information requiring RBB approval.
